

How can more information or pictures be added to the profile?

One of the sources for the display of the author profiles is Wikidata.

If you would like your picture to be displayed in your author profile, you need to add a picture to your Wikidata-infos.

If no Wikidata item page exists for your name, you have to create an item page first.

Details on how to create an item page and how to add pictures and more info to editing pages can be found [here](#). Please note that it may take a couple of weeks before your picture is actually displayed in the author profile in EconBiz due to [Entity Facts](#) update cycles.
